

## **HKLL Game Rescheduling Rules and Procedures 2023**

1. The role of the League Rep is not to find a date for the teams. He is, however, the one to justify if the rescheduling is possible and fair.
2. When requesting a game reschedule, it should be agreed at least one week before the actual scheduled date.
3. Never go to League Rep directly for rescheduling. Team A who wants to reschedule should suggest dates for Team B to choose from. In case Team B does not agree with all, then Team B could also suggest their own option for team A to consider. After agreeing, then team A should present the new schedule to the League Rep with notification to Team B.
4. If no days can be agreed, then Team A should consider the use of pool players. Or else it would lead to an automatic forfeit.
5. When the rescheduled date cannot be confirmed before the original date, the game is on as normal. Any team that fails to be present at the scheduled game time with 8 or more players is considered to forfeit.
6. If under special conditions that League Rep allows teams to delay the negotiations beyond the game date, the league rep should check with both teams for possible dates. If no consensus can be reached, the issue will be brought to GADP for final review.
