HKLL Pool Player Rule (Regulation V. Selection of Players of the 2023 Rule Book)

1. The HKLL player agent will create and run the pool. He will use the pool to assign players within their respective teams that are short of players on a rotating basis. Pool players must not be coming from the opposing team. To maintain fairness, player agents will assign players from neutral clubs. Only when no one is available then players from same club will be used.

2. This program **will not** be applied in the playoffs.

3. In order to be eligible, the team has to support the pool player program by submitting players to the pool. The pool will consist of registered HKLL league players who wish to participate **voluntarily** as pool players. The manager/coach CAN NOT force a player to join as a pool player.

4. The team must join the pool **one week before** they are entitled to draw from the pool. The manager requesting pool players must contact the HKLL player agent **by email at least 48 hours before the game** (any other request will be handled on a best-efforts basis). The team manager should also inform the respective League Rep.

5. A team can request a pool player if the team has **at least 6 players** available to play. No more than 2 pool players will be assigned per game. A team cannot request a pool player if the team has more than 9 players available.

6. A team can access the pool for 4 games.

7. The pool player **CAN NOT pitch (LL rule) or catch (Local rule)** in the game.

8. Each pool player is subjected to the mandatory play 9 consecutive outs and one at-bat **(LL rule)**.

9. The pool player can wear his/her original team uniform for the game and must be marked with "PP" on the line-up card.

10. Managers, Coaches, and the League Rep will **NOT** have the right to pick players from the pool.

11. Any violation of the above rules will result in suspension of pool player service as minimum. Further disciplinary action may be taken after conclusion in the GADP.

Pool Player Management

1. Each League Team should inform the Player Agent and the League Rep of the available pool players.

2. The pool player management will take effect from the first to the last game day of the regular season.

For data input purposes, please use **only** the form below to submit pool player application.
